- At comparable currency rates, net sales increased 6%, and, excluding Silva in Q3 2010, 9 %
- Operating profit excluding non-recurring items increased 2% to EUR 13.1 million (12.9)
- Operating profit (EBIT) decreased 47% to EUR 6.8 million (12.9), mainly due to the non-recurring sales loss related to the divestment of Silva
- Earnings per share were EUR 0.17 (0.29)
- Cash flow from operating activities was EUR 25.3 million (18.3)
- Outlook for 2011 unchanged: full-year net sales and operating profit excluding non-recurring items are expected to increase compared to 2010

Fiskars President and CEO, Kari Kauniskangas:

"Fiskars' net sales continued to grow during the third quarter, and many of our businesses strengthened their position. Given the challenging market conditions and the divestment of Silva in July, I am very pleased with our sales performance. Our business has so far been relatively resilient to the economic downturn, thanks to our strong brands and products that cater to both consumers' needs and passions.

Our operating profit excluding non-recurring items remained at last year's level, despite increases in raw material costs and the weakening of the US dollar.

Moving into the important holiday season, our focus is on securing sales in an uncertain economic environment. We are keeping our full-year guidance unchanged and expect full-year net sales and operating profit excluding non-recurring items to be above 2010 levels."

FISKARS' INTERIM REPORT, JANUARY - SEPTEMBER 2011

GROUP PERFORMANCE

Operating environment in Q3 2011

The economic environment remained uncertain during the third quarter and predicting the business environment remained challenging.

In Europe, consumer confidence has declined steeply in Fiskars' main markets and consumer demand seemed to slow in the Nordic countries. The retail environment remained soft in most European markets and retailers were reluctant to increase their stock levels. Trade was increasingly cautious and tended to focus on working capital.

In North America, consumer sentiment remained low amid uncertainty surrounding the weakening economic outlook. The buying power and confidence of middle-class consumers was simultaneously eroding, and increasingly frugal shoppers were making fewer trips to stores and hunting for bargains. U.S. retailers were keeping stock levels tight and putting off additional buying decisions until they see signs of consumer spending.

Net sales and operating profit

In the third quarter of 2011 Fiskars' consolidated net sales increased by 4% to EUR 165.3 million (Q3 2010: EUR 159.5 million) despite the divestment of Silva, which was made during the quarter. Using comparable exchange rates, consolidated net sales increased by 6% and comparable sales (excluding Silva in Q3 2010) increased 9 %. Both segments contributed to the sales increase, led by the Garden business in EMEA and the Outdoor business in the Americas.

In January - September, Fiskars' net sales increased by 6% to EUR 555.2 million (Q1-Q3 2010: EUR 525.3 million). Using comparable exchange rates, consolidated net sales increased by 7%.

Short-term borrowing totaled EUR 116.7 million (151.2) and long-term borrowing EUR 74.7 million (76.1). Short-term borrowing mainly consists of commercial papers issued by Fiskars Corporation. In addition, Fiskars had EUR 455 million (405) in unused, committed long-term credit facilities with Nordic banks.

On August 10, 2011, Fiskars signed a EUR 100 million revolving credit facility, which replaced the company's existing EUR 50 million revolving credit facility signed in November 2007. The new facility has a tenor of five years and serves for general corporate purposes.

Divestment of Silva

On July 8, 2011, Fiskars' wholly owned subsidiary, Avlis AB, sold the shares of its subsidiary, Silva Sweden AB, to the investment company Karnell. Silva was a part of Fiskars' Outdoor business area. The net sales of the Silva business amounted to EUR 15 million in 2010 and the company employed some 220 people.

The company does not consider any material changes to have taken place during the reporting period in the risks and market uncertainties presented in the Annual Report for 2010.

Outlook for 2011

At the beginning of the year, Fiskars expected the general market situation to remain positive in 2011. Since then, unease about the economic outlook has increased. We expect retailers to continue focusing on working capital, and purchasing to remain cautious.

Fiskars will continue investing in brand-building and new product development. In addition, Fiskars has begun implementing a significant five-year investment program in EMEA, which will increase Fiskars' operating expenses and capital expenditure during the coming years.

Fiskars expects its full year net sales and operating profit excluding non-recurring items to increase compared to 2010.

The associated company, Wärtsilä, will continue to have a major impact on Fiskars' profit and cash flow in 2011.

NOTES TO THE INTERIM FINANCIAL STATEMENTS**ACCOUNTING PRINCIPLES**

This interim financial statement bulletin is prepared in accordance with IAS 34 (Interim Financial Reporting) using the same accounting policies and methods of computation as in the previous annual financial statements. The interim financial statements are unaudited. All figures in the accounts have been rounded and consequently the sum of individual figures can deviate from the presented sum figure.

The Group has implemented new or amended IAS/IFRS standards and interpretations mandatory as of January 1, 2011. Of these the most important are:

- Annual improvements to IFRS
- Revised IAS 24 Related party disclosures

The adoption of the standards above had no impact on the reported results or financial position.

Use of estimates:

The preparation of the financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the valuation of the reported assets and liabilities and other information, such as contingent liabilities and the recognition of income and expenses in the income statement. Although the estimates are based on the management's best knowledge of current events and actions, actual results may differ from the estimates.
