More than 2/3 of the production of AB „Rokiškio sūris“ is exported. The mayor part of exports is fermented cheese. The group historically orientates itself into the mass production of fermented cheese, and it is one of the biggest and most famous fermented cheese producers in the Cetral and Eastern Europe regions. There are two main export directions with equal weight: European Union (mainly Italy, the Netherlands) and Russia. In the EU, the main products are hard fermented cheese and non-matured cheese, meanwhile the main production going to Russia is semi-hard fermented cheese.

Production of milk powders increased by 4 times as much compared to the year 2006. It was determined by the extremely increased price in summer time.

Another important direction of the group's production is fresh dairy production and sales in Lithuania. As from 1st January 2007, this activity is carried out by UAB „Rokiškio Pienas“. During the last year the group became a market leader and now it shares the leader position together with AB „Pieno žvaigždės“. The group's activities in the local market has changed tremendously – now the group's politics is to create added value products, the sales are promoted via strong brands and new product development, innovative market actions.

The local sales in 2008 made LTL 259 million which was around 44% more than in 2007. In the first half year 2009, the local sales made up to LTL 135 million which reflects stabile situation of the group's sales in the local market despite the recession.

The group's targets in the local market are to concentrate beside the portfolio of strongest products and maintain not less than 25% market share. Up to now the tasks are being implemented successfully.

The company's sales on the local market are directed to the sales though supermarket nets whose share in the company's sales is increasing and now it is over 80 % from the total sales in the local market.
