## Endorsement and Statement by the Board of Directors and the CEO

---

The Condensed Consolidated Interim Financial Statements of Icelandair Group hf. for the period from 1 January to 31 March 2024 have been prepared in accordance with International Financial Reporting Standards (IFRS) for Interim Financial Statements (IAS 34). The Interim Financial Statements comprise the Consolidated Interim Financial Statements of Icelandair Group hf. (the "Company") and its subsidiaries together referred to as the "Group". All amounts are stated in thousands of USD.

According to the Consolidated Statement of Comprehensive Income, loss for the period from 1 January to 31 March 2024 amounted to USD 59.4 million. Total comprehensive loss for the period was USD 55.2 million. Equity at 31 March 2024 amounted to USD 233.3 million according to the Consolidated Statement of Financial Position and share capital amounted to USD 311 million. Reference is made to the Consolidated Statement of Changes in Equity regarding information on changes in equity.

### Statement by the Board of Directors and the CEO

The Condensed Consolidated Interim Financial Statements for the three months ended 31 March 2024 have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and additional Icelandic disclosure requirements for Consolidated Financial Statements of listed companies. The Condensed Consolidated Interim Financial Statements have neither been audited nor reviewed by the Company's independent auditors.

Strong revenue generation yielded the highest passenger revenue ever recorded in the first quarter in the history of Icelandair. However, competitor capacity increase in mature markets put pressure on yields and load factor. Icelandair's capacity increase in the quarter first and foremost concentrated on strategic markets that contribute to higher revenue generation and profitability. On-time performance was strong in the quarter, a key factor in reducing cost, and increasing customer satisfaction. A higher proportion of efficient aircraft in our fleet, positive economies of scale with increased capacity, and a strong cost focus delivered ~2% decrease in unit cost excluding fuel. The flight schedule in the passenger network will be Icelandair's largest ever in summer 2024, with service to 57 destinations, thereof three new, utilizing a total of 42 aircraft.

Icelandair transported 757 thousand passengers in the quarter, as compared to 665 thousand in first quarter last year. The market to Iceland was the Company's largest in the quarter representing 38% of total passengers, the largest increase however was in the via market which accounted for 35% of total passengers demonstrating the flexibility in the Company's route network. The load factor was 76.7%, as compared to 77.8% last year. Load factor improved in February and March, but decreased year-on-year in January. On-time performance was strong at 84.4%, improving significantly, or by 6.4 percentage points between years.

Following a difficult year in the Cargo operations in 2023 various actions, including capacity adjustments, have restored profitability of the segment. Measures included leasing out one of two freighter aircraft, adjusting the cargo flight schedule to market conditions, and organizational changes. The Leasing operation performed well and is gradually expanding. A planned addition of one aircraft to the Company's largest leasing customer in Q2 is on schedule as is the addition of a third aircraft fitted for the Company's VIP Private Jet services to meet high demand in that segment.

Icelandair employed an average of 3,438 full-time employees in Q1, an increase of 11% from last year. As of 1 March a reduction of 200 full-time employees is effected due to the outsourcing of the Company's flight kitchen.

Equity amounted to USD 233 million, with an equity ratio of 14% at the end of March. The total liquidity position is strong, with cash and marketable securities amounting to USD 411 million, wherof USD 52 million are in the form of committed undrawn revolving facilities.

Operational efficiency gains and lowered costs will be at the top of Icelandair's agenda in 2024. Various measures have already been implemented, such as overhead cuts, adjustments in the Cargo operations and the outsourcing of the flight kitchen, with additional initiatives already in the work on both the revenue and cost side. The latter will focus on reducing seasonality, e.g. through wet-leasing aircraft during low season and increasing the flexibility in the Company's Collective Bargaining Agreements, along with large cost items, including but not limited to, distribution, strategic procurement, claims and irregular operations costs, and unit maintenance. Opportunities on the revenue side entail the continued development and optimization of the route network and bank structure in Keflavík, partnerships, growing package sales following the integration of VITA with Icelandair, increased ancillary sales through digital development and further strengthening Icelandair's position in the Arctic.

## Notes

---

### 1. Reporting entity

Icelandair Group hf. (the "Company") is a public limited liability company incorporated and domiciled in Iceland. The address of the Company's registered office is at Reykjavíkurlugvöllur in Reykjavík, Iceland. The Condensed Consolidated Interim Financial Statements of the Company as at and for the three months ended 31 March 2024 comprise the Company and its subsidiaries, together referred to as the "Group" and individually as "Group entities" and the Group's interests in associates. The Group primarily operates in the airline industry. The Company is listed on the Nasdaq Main Market Iceland.

The Group's audited Consolidated Financial Statements as at and for the year ended 31 December 2023 are available at its website address, [www.icelandairgroup.com](http://www.icelandairgroup.com) and at the Nasdaq Main Market Iceland website address, [www.nasdaqomxnordic.com](http://www.nasdaqomxnordic.com).

### 2. Basis of accounting

#### a. Statement of compliance

The Group's Condensed Consolidated Interim Financial Statements for the three months ended 31 March 2024 have been prepared in accordance with IAS 34, Interim Financial Reporting. They do not include all the information required for a complete set of IFRS financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual Consolidated Financial Statements as at and for the year ended 31 December 2023.

These Condensed Consolidated Interim Financial Statements were approved for issue by the Board of Directors on 23 April 2024.

#### b. Basis of measurement

The Condensed Consolidated Interim Financial Statements are prepared on the historical cost basis except that derivative financial instruments, part of deferred income and certain short-term investments are stated at their fair values.

### 3. Functional and presentation currency

The Company's functional currency is U.S. dollars (USD). These Condensed Consolidated Interim Financial Statements are presented in USD. All financial information presented in USD has been rounded to the nearest thousand, unless otherwise indicated.

### 4. Use of estimates and judgements

In preparing these Condensed Consolidated Interim Financial Statements, management has made judgements, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimations of uncertainty were the same as those that applied to the audited Consolidated Financial Statements as at and for the year ended 31 December 2023.

### 5. Changes in accounting policies

The accounting policies and methods of computation applied in these Condensed Consolidated Interim Financial Statements are the same as those applied by the Group in its Consolidated Financial Statements as at and for the year ended 31 December 2023. A number of new standards are effective for annual periods beginning after 1 January 2024 and earlier application is permitted; however, the Group has not early adopted the new or amended standards in preparing these Condensed Consolidated Interim Financial Statements and they are not considered to have significant impact on the Condensed Consolidated Interim Financial Statements.

## Notes, contd.:

### 6. Operating segments

Segment information is presented in the Condensed Consolidated Interim Financial Statements in respect of the Group's business segments, which are the primary basis of segment reporting. The business segment reporting format reflects the Group's management and internal reporting structure and is divided into three segments; Route network, Cargo operation and Leasing operation.

The management of Icelandair Group assesses performance based on segment revenue and profit or loss and makes resource allocation decisions for the segment based on various performance metrics. The objective in making resource allocation decisions is to optimize consolidated financial results.

Inter-segment pricing is determined on an arm's length basis.

#### Route network

The Route network business unit is the main reporting segment, which provides international and domestic passenger air travel to, from, via and within Iceland by the entities Icelandair ehf. and Flugfélag Íslands ehf.

The segment also consist of the parent company Icelandair Group hf., the holding company, and other entities such as Iceeignir, a real estate entity, IceCap, a captive insurance entity, CAE Icelandair Flight Training, which operates flight simulators and Feria, a travel agency, are platform functions of the business that primarily support the Group entities in this segment and are therefore classified within this segment.

#### Cargo operation

The Cargo operation offers air-freight services to, from, via and within Iceland by utilizing the capacity within the aircraft of the Icelandair passenger network as well as with their own freighters.

#### Leasing operation

The Leasing operation offers aircraft leasing and consulting services to international passenger airlines and tour operators.

Subsequent repayments .....	147,692	135,874
Total loans and borrowings .....	407,334	386,250

Further lease commitments are in place for two B737 MAX 8 aircraft and seven A321LR aircraft scheduled for delivery to the Route network as demonstrated in the table below. The total lease liability for these nine aircraft is estimated to be around USD 359 million.

	Q2 2024	Q4 2024	Q1 2025	Q4 2025	Q1 2026	Total
B737 MAX 8 .....	2					2
A321LR .....		2	2	2	1	7
Total .....	2	2	2	2	1	9

### 13. Deferred income

Sold unused tickets, fair value of unredeemed frequent flyer points and other prepayments are presented as deferred income in the Consolidated Statement of Financial Position.

	31.3.2024	31.12.2023
Deferred income is specified as follows:		
Sold unused tickets and vouchers .....	471,732	272,481
Frequent flyer points .....	22,449	22,137
Other prepayments .....	18,919	23,167
Total deferred income .....	513,100	317,785

The amount allocated to sold unused tickets and vouchers is the book value of fares and fuel surcharges that the Group has collected and is liable for to passengers. Thereof sold tickets with future travel dates amounted to USD 449.6 million (2023: USD 247.1 million) and vouchers amounted to USD 22.1 million (2023: USD 25.4 million). When issued the vouchers are generally valid for 3 years. The validity of covid-related vouchers has been extended by an additional two years from the date of original issuance.

The amount allocated to frequent flyer points is estimated by reference to the fair value of the discounted services for which they could be redeemed, since the fair value of the points themselves is not directly observable. The fair value of the discounted services for which the points, granted through a customer loyalty program, can be redeemed takes into account the expected redemption rate and the timing of such expected redemptions. That amount is recognized as deferred income.

Other prepayments consist mainly of prepayments for packages and charter flights.

### Traffic

Available seat-kilometers (ASK) .....	The total number of seats available on scheduled flights multiplied by the number of kilometers these seats were flown
RASK .....	Total revenues on a given flight divided by the ASK on that same flight
CASK .....	Total operating and depreciation cost per available seat kilometer is calculated by dividing total operating and depreciation cost on a given flight by available seat kilometers (ASK) on that flight
CASK less fuel .....	Total operating and depreciation cost per available seat kilometer less fuel is calculated by deducting cost of fuel, fuel hedges, carbon emissions trading expenses and de-icing from total operating and depreciation cost and divide by total available seat kilometers (ASK)
Yield .....	The average amount of total passenger revenue received per paying passenger flown one kilometer. Total Yield is calculated as total passenger revenue/RPK. Total passenger revenue used for this calculation includes airfare, excess baggage, cabin upgrade and seat selection revenue
Revenue Passenger Kilometer (RPK) ..	The number of revenue passengers carried on scheduled flights multiplied by the number of kilometers flown
Passengers total .....	Each passenger is counted by the number of flight coupons his journey requires. A passenger flying KEF-CPH is counted as one passenger, a passenger flying NYC-KEF-CPH is counted as two passengers
On-Time-Performance (OTP) .....	A measure of flights arriving within 15 minutes of scheduled arrival time. OTP is calculated by dividing the number of arrivals that arrive within 15 minutes of scheduled arrival time with the total number of arrivals
Passenger flights .....	Flight flown by an airline for the purpose of carrying passengers, belly freight and mail according to a published timetable for which it receives commercial remuneration
Passenger load factor .....	Calculated by dividing RPK by ASK
Sold Block Hours - Leasing .....	Sold Block Hours in the leasing operation. Block Hours is the time computed from the moment the blocks are removed from the wheels of the aircraft until they are replaced at the next point of landing
Freight ton kilometers (FTK) .....	The number of tons of freight carried, obtained by counting each ton of freight on a particular flight (with one flight number)
Total CO2 emissions tons .....	Carbon emission from all flights, measured in tons
CO2 emissions per OTK .....	CO2 emitted by moving one payload tonne one kilometer for all international flights
Passenger mix:	
To .....	Passenger visiting Iceland
From .....	Passengers originating in Iceland visiting destinations outside of Iceland
VIA .....	Passengers traveling across the Atlantic connecting in Iceland
Within .....	Passengers traveling solely within Iceland

### Capital structure

Total cash and marketable securities .....	Cash and cash equivalents (including cash from assets held for sale) and marketable securities
Liquidity .....	Total cash and cash equivalents (including cash from assets held for sale), marketable securities and undrawn revolving facilities
Net interest-bearing debt .....	Loans and borrowings, net of total cash and marketable securities
Net lease liabilities .....	Lease liabilities (including assets held for sale, net of lease receivables)
Current ratio .....	Indicates how many times over current assets can cover current liabilities and is calculated by dividing current assets with current liabilities
Equity ratio .....	Indicates the ratio of how leveraged the Company is and is calculated by dividing total equity with total assets
Intrinsic value of share capital .....	Indicates the book value of each share and is calculated by dividing total equity with share capital
