## Endorsement and Statement by the Board of Directors and the CEO

The Condensed Consolidated Interim Financial Statements of Kvika banki hf. ("Kvika" or the "Bank") for the period 1 January to 30 June 2017 have been prepared in accordance with International Accounting Standard IAS 34 Interim Financial Reporting as adopted by the European Union, and additional requirements in the Icelandic Financial Statement Act. The Condensed Consolidated Interim Financial Statements comprise Kvika and its subsidiaries (together the "Group").

Kvika banki hf. is a specialised investment bank focusing on asset management and capital markets. Kvika provides businesses, investors and individuals with comprehensive investment banking and asset management services as well as selected banking services. Kvika's asset management has an established reputation and offers solutions covering all major asset classes, including fixed-income securities, equities, and alternative investments in both domestic and international markets. At the end of June 2017, the Group had ISK 136 billion of assets under management.

According to the Consolidated Income Statement, the Group's profit for the period 1 January to 30 June 2017 amounted to ISK 946 million. According to the Consolidated Statement of Financial Position, the Group's equity at the end of this period amounted to ISK 8,208 million and total assets amounted to ISK 90,986 million.

### Continuing strong performance during the first half of 2017

Net operating income during 1H of 2017 was ISK 2,573 million, significantly above the 1H of 2016 figure of ISK 2,164 million, mostly due to net interest income and net fee and commission income increasing by 24% between the periods. Net interest income amounted to ISK 807 million (1H of 2016: 528 million), net fee income amounted to ISK 1,296 million (1H of 2016 1,165 million) and other operating income amounted to ISK 470 million (1H of 2016: 471 million).

Administrative expenses amounted to ISK 1,609 million and were in line with budget for the period and are 3.5% lower than in 1H of 2016. Profit for the period amounted to ISK 946 million corresponding to an annualised 26.2% return on equity based on the equity position at the beginning of the year adjusted for changes in share capital and transactions with treasury shares during the year.

The Group's total capital ratio at 30 June 2017 is 23.1% (31.12.2016: 20.6%). The Bank's minimum regulatory capital requirement is 11.8%. Therefore, the Bank is well placed to fulfil the additional capital requirements that will be imposed following the implementation of CRD IV during the next few years.

The Bank maintains a strong liquidity position. The Bank's assets are liquid and its access to funding is constantly improving, reflected by the Bank's funding cost decreasing significantly during the year. As at end of June 2017 the Group's 30 day liquidity coverage ratio (LCR) was 193%, well above the minimum level of 100% which became effective on 1 January 2017.

### Risk management

The Bank is exposed to various types of risk in its operations. The Bank enforces a risk management framework which is further structured and outlined in the Bank's risk policy guide and rules on risk management. We refer to notes 34-46 on analysis of exposure to various types of risk.

### Corporate Governance

The Board of Directors emphasizes good corporate governance and following accepted guidelines on corporate governance. The Board has laid down comprehensive rules in which the authority of the Board is defined and its scope of work in conjunction with the CEO. They cover e.g. order at meetings, competence of Board members to participate in individual decisions, confidentiality and information disclosure between the CEO and the Board. Majority of Board members are independent of the Bank and there are no executive directors on the Board. The Bank aims to promote gender equality and two out of five board members and one out of two alternate board members are women.

The Board determines compensation for the CEO. The Board of Directors has delegated certain tasks to a subcommittee, the Risk, Audit and Remuneration Committee. The committee has three members appointed by the Board, the majority of which is independent of the Bank.

More information about the Bank's Corporate Governance, including a signed statement, can be found on the Bank's website, [www.kvika.is](http://www.kvika.is).

## Endorsement and Statement by the Board of Directors and the CEO

### Statement by the Board of Directors and the CEO

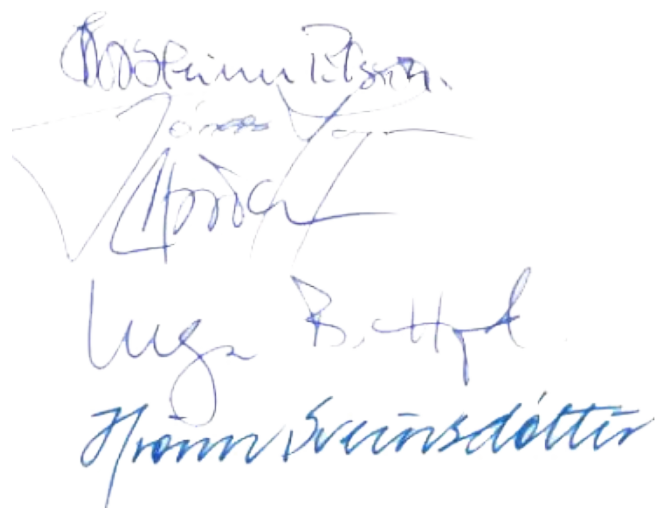

To the best of our knowledge the Condensed Consolidated Interim Financial Statements of Kvika banki hf. for the period 1 January to 30 June 2017 comply with IAS 34 Interim Financial Reporting as adopted by the EU and additional requirements in the Icelandic Financial Statement Act, and give a true and fair view of the Group's assets, liabilities and financial position as at 30 June 2017 and the financial performance of the Group and changes of cash flows for the period 1 January to 30 June 2017.

Further, in our opinion the Condensed Consolidated Interim Financial Statements and the Endorsement of the Board of Directors and the CEO gives a fair view of the development and performance of the Group's operations and its position and describes the principal risks and uncertainties faced by the Group.

The Board of Directors and the CEO of the Bank have today discussed the Condensed Consolidated Interim Financial Statements for the period 1 January to 30 June 2017, and confirm them by the means of their signatures.

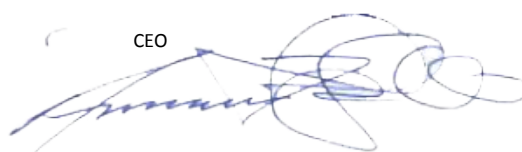

Reykjavik, 18 August 2017.

## Review Report on Interim Financial Information

### To the Board of Directors and Shareholders of Kvika banki hf.

We have reviewed the accompanying Condensed Consolidated Interim Statement of financial position of Kvika banki hf. and its subsidiaries (the "Bank") as of 30 June 2017 and the related Condensed Consolidated Interim Income Statement, Condensed Consolidated Interim Statement of Comprehensive Income, Condensed Consolidated Interim Statement of changes in equity and Condensed Consolidated Interim Statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes.

### Management's and the Board of directors Responsibility for the Financial Statements

The board of directors and management is responsible for the preparation and fair presentation of this interim financial information in accordance with International Financial Reporting Standards for Interim Financial Reporting, IAS 34, as adopted by the EU and additional requirements in the Icelandic Financial Statement Act.

### Auditor's Responsibility

Our responsibility is to express a conclusion on this interim financial information based on our review.

### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements, ISRE 2410. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not give a true and fair view of the financial position of the Bank as at 30 June 2017, and of its financial performance and its cash flows for the six-month period then ended in accordance with International Financial Reporting Standards for Interim Financial Reporting, IAS 34, as adopted by the EU and additional requirements in the Icelandic Financial Statement Act.

### Confirmation of Endorsement and Statement by the Board of Directors and the CEO

Pursuant to the requirements of Paragraph 2 Article 104 of the Icelandic Act on Financial Statements No. 3/2006, we confirm to the best of our knowledge that the accompanying Endorsement and Statement by the Board of Directors and the CEO includes all information required by the Icelandic Act on Financial Statements that is not disclosed elsewhere in the Condensed Consolidated Interim Financial Statements.

- Securities used for hedging are measured at fair value
- Derivatives are measured at fair value
- Investment properties are measured at fair value
- Short positions are measured at fair value
- Assets classified as held for sale are measured at the lower of cost or fair value less cost to sell

A breakdown of the accounting classification of financial assets and financial liabilities is provided in note 47.

#### c. Functional and presentation currency

The Condensed Consolidated Interim Financial Statements are prepared in Icelandic Krona (ISK), which is the Bank's functional currency. All financial information has been rounded to the nearest thousand, unless otherwise stated.

The Group's assets and liabilities which are denominated in other currency than ISK are translated to ISK using the exchange rate as at the end of day 30 June 2017.

#### d. Going concern

The Bank's management and Board of directors has assessed the Group's ability to continue as a going concern and are satisfied that the Group has the resources to continue its operations.

#### e. Estimates and judgements

The preparation of interim financial statements in accordance with IFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The estimates and underlying assumptions are based on historical result and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying amounts of assets and liabilities that are not readily apparent from other sources.

The estimates and underlying assumptions are reviewed on an on going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period and future periods if the revision affects both current and future periods.

Information about areas of estimation uncertainty and critical judgements made by management in applying accounting policies that can have a significant effect on the amounts recognised in the Condensed Consolidated Interim Financial Statements is provided in the Consolidated Financial Statements as at and for the year ended 31 December 2016.

#### f. Relevance and importance of notes to the reader

In order to enhance the informational value of the Financial Statements, the notes are evaluated based on relevance and importance for the reader. This can result in information, that has been evaluated as neither important or relevant for the reader, not being presented in the notes.

### 3. Significant accounting policies

The accounting policies and methods of computation applied by the Group in these Condensed Consolidated Interim Financial Statements are the same as those applied by the Group in its Consolidated Financial Statements as at, and for the year ended, 31 December 2016. A number of new international financial reporting standards, amendments to standards and interpretations were not yet effective for the period ended 30 June 2017 and have not been applied in the preparation of these condensed consolidated interim financial statements. Early adoption of standards and amendments is not planned.

Total number of full time employees at the end of the period ..... 84 87

According to Act No. 165/2011, passed in 2011, banks and other financial institutions providing VAT exempt services, must pay a tax based on salary payments, called tax on financial activity. The current tax rate is 5.50% (2016: 5.50%).

### 9. Income tax

The Group will not pay income tax on its profit for 2017 due to the fact that it has a tax loss carry forward that offsets the calculated income tax. At year end 2016, the tax loss carry forward of the Group amounted to ISK 160 billion. A substantial part of the deferred tax asset is utilisable until end of year 2018 and 2019. Management is of the opinion that the Group's operations in the years to come will result in taxable results which will be offset with the tax loss carry forward. The Group has therefore recognised a part of the tax loss carry forward as a deferred tax asset in the consolidated statement of financial position. The deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. The deferred tax asset is reviewed at each reporting date.

Income tax is recognised based on the tax rates and tax laws enacted during the current year, according to which the domestic corporate income tax rate was 20.0% (2016: 20.0%)

### 10. Special tax on financial institutions

According to Act No. 155/2010 on Special Tax on Financial Institutions, certain types of financial institutions, including banks, must pay annually a tax based on the carrying amount of their liabilities as determined for tax purposes in excess of ISK 50 billion at year-end. The tax rate is set at 0.376% (2016: 0.376%) and the tax is not a deductible expense for income tax purposes. The tax is presented separately in the consolidated income statement.

The Group acquired investment properties through one of its subsidiaries, Kársnesbyggð ehf. The intention is to either earn rental income or capital appreciation or both.

### 21. Unconsolidated structured entities

Where the Group acts as an agent for the investor, it does not consolidate the investment funds. When the Group holds investments in unconsolidated investment funds, they are classified as financial investments designated at fair value through profit or loss or other financial investments held for trading. The fair value of these investments represents the Group's maximum exposure to loss from its investments in such unconsolidated investment funds.

The nature and purpose of Investment funds is to generate fees from managing assets on behalf of third party investors. These vehicles are financed through the issuance of units to investors.

	30.6.2017	31.12.2016
Investments funds .....	52,222,776	49,837,884

The following table shows an analysis of the carrying amounts of interests held by the Group in unconsolidated structured entities. The Group's maximum exposure to loss is the carrying amount of the assets held.

	Carrying amount

At the interest payment date in the year 2020 the annual interest rate increases from 5.50% p.a. to 7.50% p.a. At the same date, the Group has the right to repay the subordinated bond and on any subsequent interest payment dates until maturity.

Subordinated liabilities are financial liabilities in the form of subordinated capital which, in case of the Group's voluntary or compulsory winding-up, will not be repaid until after the claims of ordinary creditors have been met. In the calculation of the capital ratio, they are included within Tier 2. The Group may only retire subordinated liabilities with the permission of the Icelandic Financial Supervisory Authority.

In the calculation of the capital ratio, subordinated liabilities are included within Tier 2 and are included in the equity base as the amount eligible for Tier 2 capital treatment is amortized on a straight-line basis over the final 5 years to maturity or up to 20% a year.

### 32. Equity

#### a. Share capital

The share capital issued by the Bank is divided into two classes; class A and class B. The total share capital of the Bank is ISK 1,403,631,700; more specifically the share capital in class A amounts to ISK 1,393,631,700 and in class B it amounts to 10,000,000. The nominal value of shares issued by the Bank is ISK 1 per share in both share capital classes. Class A shares carry voting rights of one vote per nominal value of ISK 1 at shareholders' meetings, class B shares do not carry voting rights. Reference is made to the Bank's Articles of Association for more information about rights and restrictions associated with both classes of share capital.

#### b. Share capital increase authorizations

The Board of Directors is authorized to increase the class A share capital of the Bank by up to ISK 200,000,000 through subscription for new shares. This authorization is based on temporary provision I to the Articles of Association and is valid until 15 March 2022. The Board of Directors is furthermore authorized to increase the class A share capital of the Bank in stages by up to ISK 50,000,000 in nominal value, for the purposes of fulfilling share option agreements in accordance with the Bank's share incentive scheme. The Board of Directors is also authorized to increase the class B share capital of the Bank by up to ISK 10,000,000 shares, by issuance of new class B shares. Both of these authorizations are based on temporary provision I to the Articles of Association and are valid until 30 November 2021. Temporary provision III to the Articles of Association moreover authorizes the Board of Directors to issue new class A share capital to serve warrants which have been issued in the maximum amount of ISK 130,000,000 nominal value, each of which contains the right to subscribe for one new class A share in the Bank. A copy of the Bank's Articles of Association, including the temporary provisions, is available on the Bank's website, [www.kvika.is](http://www.kvika.is).

#### b. Past due but not individually impaired

Past due but not individually impaired financial assets are those assets where contractual payments are 1 or more days past due but the Group believes that impairment is not appropriate on the basis of the level of security or future cash flows of the borrower. Past due loans are reported as the total claim value and not only those payments that are past due.

#### b. By seniority

The following definitions are used when ranking the loan portfolio by seniority:

- Senior I  
Loans in this category have first priority claims on the borrower's assets, are secured with collateral which can be marked to market and have asset coverage exceeding 100%.
- Senior II  
Loans in this category have sufficient coverage and liquid collateral, but the collateral can in some cases not be marked to market, e.g. unlisted shares.
- Junior  
Junior loans have second lien claims on the borrower's assets or lower levels of collateral coverage.
- Mezzanine  
Mezzanine loans are loans which are unsecured and subordinated to all of the borrower's other liabilities.

The breakdown of loans by categories is as follows:

	Senior I	Senior II	Junior	Mezzanine	30.6.2017

### 37. Collateral and other credit enhancements

#### a. Valuation

The Group applies the same valuation methods to collateral held as other comparable assets held by the Group. The methods used for financial assets are outlined in note 48. For other types of assets the Group uses third party valuation where possible. Haircuts are then applied to account for liquidity and other factors which may affect the collateral value of the asset or other credit enhancement.

### 38. Loan-to-value

#### a. General

The loan-to-value ratio (LTV) is the ratio of the gross amount of the loan to the value of the collateral, if any. The general creditworthiness of a customer is viewed as the most reliable indicator of credit quality of a loan. Valuation of collateral held against loans is therefore not updated unless the creditworthiness of a borrower deteriorates.

#### b. Breakdown

The breakdown of loans to customers by LTV is specified as follows:

### 39. Large exposures

In accordance with the Financial Supervisory Authority's regulation no. 625/2013 on financial institutions' large exposures, total exposure towards a customer is classified as a large exposure if it exceeds 10% of the Bank's capital base (see note 33).

According to the regulation a single exposure, net of risk adjusted mitigation, cannot exceed 25% of the capital base. Single large exposures net of risk adjusted mitigation take into account the effects of collateral held by the Bank, and other credit enhancements, in accordance with the Financial Supervisory Authority's regulation no. 625/2013.

Maturity analysis of financial assets and financial liabilities is based on contractual cash flows or, in the case of held for trading securities, expected cash flows. If an amount receivable or payable is not fixed, e.g. for inflation indexed assets and liabilities, the maturity analysis uses estimates based on current conditions.

Cash flows relating to unrecognized balance sheet items (unused loan commitments and financial guarantee contracts) are presented separately from financial assets and financial liabilities. Both contractual outflows and inflows are shown, to fully reflect the nature of these items.

It should be noted that the Group's expected cash flows sometimes vary considerably from the contractual cash flows, most significantly in that demand deposits from customers are expected to remain stable or increase in the long term. In this case the presentation used reflects the worst case scenario from the Group's perspective. Furthermore, the analysis does not consider any measures that could be taken to convert long-term assets to cash through sale.

## Notes to the Condensed Consolidated Interim Financial Statements

### 43. Exposure towards changes in the CPI

#### a. Definition

Exposure towards changes in CPI is the risk that fluctuations in the Icelandic Consumer Price Index (CPI) will affect the balance and cash flow of indexed financial instruments.

The Group is exposed to Icelandic inflation since CPI indexed assets exceed CPI indexed liabilities. All indexed assets and liabilities are valued according to the CPI measure at any given time and changes in CPI are recognised in the income statement as interest.

#### b. Management

The Group controls its indexation risk through derivatives contracts and sales and purchases of indexed bonds, mostly government bonds, and thus keeps its inflationary position within the limits set by the ALCO committee.

#### c. Balance of CPI linked assets and liabilities

The net balance of CPI linked assets and liabilities is specified as follows:

	30.6.2017	31.12.2016
Assets .....	7,505,344	6,124,041
Liabilities .....	(5,947,078)	(4,882,993)
<b>Total</b>	<b>1,558,265</b>	<b>1,241,048</b>

#### d. Sensitivity to changes in CPI

Given the net balance of CPI linked assets and liabilities, a 1% change in the CPI would, with other things constant, result in the following changes to the Group's pre-tax profit.

	30.6.2017		31.12.2016	
	-1%	1%	-1%	1%
Government bonds .....	(1,532)	1,532	(9,783)	9,783

	<b>(15,583)</b>	<b>15,583</b>	<b>(12,410)</b>	<b>12,410</b>

The effect on equity would be the same.

### 44. Currency risk

#### a. Definition

Currency risk arises when financial instruments are not denominated in the functional currency of the respective Group entity and can affect both the Group's income statement and statement of financial position. A part of the Group's financial assets and liabilities is denominated in foreign currencies.

#### b. Management

Currency positions are monitored by risk management and reported to the ALCO committee. Any mismatch between assets and liabilities in each currency is monitored closely and managed within limits.

The Group is subject to limits set by the Central Bank of Iceland regarding the maximum open currency position. At 30 June 2017 and 30 June 2016 the Group's position in foreign currencies was within those limits.

#### c. Exchange rates

The following exchange rates have been used by the Group in the preparation of these financial statements:

	Closing 30.6.2017	Average 6m 2017	Closing 31.12.2016	Average 6m 2016
EUR/ISK .....	117.8	117.2	119.1	140.6
USD/ISK .....	103.3	108.4	112.8	126.1

### 44. Currency risk (cont.)

#### e. Sensitivity to currency risk

Given the net currency position, a 10% change in the value of the ISK would, with other things constant, result in the following changes to the Group's pre-tax profit.

Assets and liabilities denominated in foreign currencies	30.6.2017		31.12.2016	
	-10%	+10%	-10%	+10%
EUR .....	(2,467)	2,467	7,734	(7,734)
USD .....	80,695	(80,695)	(1,875)	1,875
GBP .....	(16,166)	16,166	251	(251)
NOK .....	1,434	(1,434)	4,594	(4,594)
Other currencies .....	(448)	448	11,779	(11,779)
<b>Total</b>	<b>63,049</b>	<b>(63,049)</b>	<b>22,482</b>	<b>(22,482)</b>

The effect on equity would be the same.

### 45. Other price risk

Other price risk arises from changes in the market prices of shares and other variable income securities in the Group's portfolio. The Group directly holds listed and unlisted shares and other variable income securities, while also gaining exposure to listed shares through portfolio options trading. The table below shows the Group's net exposure, including delta-adjusted options exposure.

	30.6.2017			31.12.2016		
	Average	Max	Exposure	Average	Max	Exposure
Listed shares .....	1,166,393	2,306,390	735,711	1,179,342	1,706,461	1,145,862
Unlisted shares .....	298,664	404,449	404,450	623,585	819,213	567,776
Unlisted unit shares .....	1,392,956	3,198,181	677,400	1,396,410	3,216,784	1,442,194
<b>Total</b>			<b>1,817,561</b>			<b>3,155,832</b>

### 46. Operational risk

#### a. Definition

Operational risk is the risk of financial losses resulting from the failure or inadequacy of internal processes or systems, from employee error or from external events. Operational risk includes legal risk, but excludes reputational risks. It is therefore inherent in all areas of business activities.

#### b. Management

Operational risk can be reduced through staff training, process re-design and enhancement of the control environment. The risk management unit monitors operational risk by tracking loss events, quality deficiencies, potential risk indicators and other early-warning signals. The unit takes an active role in internal control and quality management.

### 48. Financial assets and liabilities measured at fair value

#### a. Fair value hierarchy

The fair value of financial assets and liabilities that are traded in active markets are based on quoted market prices. For other financial instruments the Bank determines fair value using various valuation techniques. IFRS 13 specifies a fair value hierarchy based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources whereas unobservable inputs reflect the Bank's market assumptions. These two types of inputs result in the following fair value hierarchy:

##### - Level 1

Inputs are quoted market prices (unadjusted) in active markets for identical instruments.

##### - Level 2

Inputs are not quoted market prices but are observable either directly, i.e. as prices, or indirectly, i.e. derived from prices. This category includes financial instruments valued using quoted prices in active markets for similar instruments, quoted prices for similar or identical instruments in markets that are considered less than active and other instruments which are valued using techniques which rely primarily on inputs that are directly or indirectly observable from market data.

##### - Level 3

Inputs are not observable or unobservable inputs have a significant effect on the valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments are required to reflect the differences between the instruments.

#### b. Valuation process

The Bank's ALCO committee is responsible for fair value measurements of financial assets and liabilities classified as level 2 or level 3 instruments. The valuation is carried out by personnel from Risk and Treasury and is revised at least quarterly, or when there are indications of significant changes in the underlying inputs.

#### c. Valuation techniques

The Group uses widely recognized valuation techniques, including net present value and discounted cash flow models, comparison with similar instruments for which market observable prices exist, Black-Scholes and other valuation models.

Valuation techniques include recent arm's length transactions between knowledgeable, willing parties, if available, reference to the current fair value of other instruments that are substantially the same, the discounted cash flow analysis and option pricing models. Valuation techniques incorporate all factors that market participants would consider in setting a price and are consistent with accepted methodologies for pricing financial instruments. Periodically, the Group calibrates the valuation technique and tests it for validity using prices from any observable current market transactions in the same instrument, without modification or repackaging, or based on any available observable market data.

For more complex instruments, the Group uses proprietary models, which usually are developed from recognised valuation models. Some or all of the inputs into these models may not be market observable, and are derived from market prices or rates or are estimated based on assumptions. When entering into a transaction, the financial instrument is recognised initially at the transaction price, which is the best indicator of fair value, although the value obtained from the valuation model may differ from the transaction price. This initial difference, usually an increase in fair value, indicated by valuation techniques is recognised in income depending upon the individual facts and circumstances of each transaction and no later than when the market data becomes observable.

The value produced by a model or other valuation technique is adjusted to allow for a number of factors as appropriate, because valuation techniques cannot appropriately reflect all factors market participants take into account when entering into a transaction. Valuation adjustments are recorded to allow for model risks, bid-ask spreads, liquidity risks, as well as other factors. Management believes that these valuation adjustments are necessary and appropriate to fairly state financial instruments carried at fair value in the statement of financial position.

#### g. Fair value measurements for Level 3 financial assets

Level 3 assets consist primarily of highly illiquid, unlisted bonds, shares and share certificates. Each asset is evaluated separately but assets within an asset group share a valuation method. The following valuation methods are in use in 2017:

<b>Asset class</b>	<b>Method</b>	<b>Significant unobservable input</b>	<b>Range</b>	<b>Book value 30.6.2017</b>
Unlisted shares	P/B multiplier	Equity	0.5-1.5	273,226
Unlisted unit shares	Investment multiplier	Original investment	0.00	0
Derivatives	Discounted cash flow	Equity	-	139,751
<b>Total</b>				<b>412,977</b>

<b>Asset class</b>	<b>Method</b>	<b>Significant unobservable input</b>	<b>Range</b>	<b>Book value 31.12.2016</b>
Unlisted shares	P/B multiplier	Equity	1.0-1.5	567,489
Unlisted unit shares	Investment multiplier	Original investment	0.05	4,434
Derivatives	Discounted cash flow	Equity	-	75,294
<b>Total</b>				<b>647,218</b>

Given the methods used, the possible range of the significant unobservable inputs is wide. When determining the values used the Group considers the financial strength of the entity in question, recent trades if any and multipliers for comparable instruments.

#### h. The effect of unobservable inputs in Level 3 fair value measurements

The Group believes its estimates represent appropriate approximations of fair value and that the use of different valuation methodologies and reasonable changes in assumptions or unobservable inputs would not significantly change the estimates.

A 10% change in the estimates would have the following effect on profit before taxes:

	<b>+10%</b>	<b>-10%</b>
Shares and other variable income securities .....	13,975	(13,975)
<b>Total</b>	<b>13,975</b>	<b>(13,975)</b>

## Notes to the Condensed Consolidated Interim Financial Statements

### 49. Financial assets and liabilities not measured at fair value

The Group holds financial instruments which are not measured at fair value. Except for loans to customers, the Group believes that the best estimate of the fair value of these financial instruments is equal to the carrying amount at the reporting date and does therefore not report a fair value for these financial instruments. Loans to customers are classified as level 3, in the fair value hierarchy, and have a book value of ISK 25,352,041 thousand at end of June 2017. The estimated fair value of loans to customers at end of June 2017 is ISK 25,248,591 thousand.

Cash and cash equivalents includes several components as detailed in note 11. Cash equivalent assets are either balances available on-demand or on very short notice, or other assets easily converted to cash. Other financial assets consist primarily of short-term receivables. The carrying amount of these assets is therefore a reasonable approximation of their fair value.

Deposits, deposits from credit institutions and other borrowings are typically either short-term or have variable interest rates. Other liabilities consist primarily of accounts payables, withholding taxes and other short-term payables. The carrying amount of these liabilities is therefore considered a reasonable approximation of their fair value.

### Segment information

#### 50. Business segments

Segment reporting is based on the same principles and structure as internal reporting to senior management and the board of directors. Segment performance is evaluated on earnings before tax.

##### a. Reportable segments

The Group defines five reportable segments which reflect the reporting structure of the Bank.

- Corporate Banking  
Corporate Banking offers various forms of banking services and related advisory services, in addition to providing specialized lending services.
- Corporate Finance  
Corporate Finance provides its customers with impartial and independent advice concerning purchases, sales and mergers and acquisitions of companies.
- Capital Markets  
Capital Markets offers securities and foreign currency brokerage, derivatives brokerage and forward contracts to clients, which include institutional investors, corporates and high net worth individuals.
- Proprietary Trading and Treasury  
Proprietary Trading and Treasury provide market making services to its clients as well as providing the Bank with treasury services.
- Asset Management  
Products and services offered include asset management, both domestic and foreign assets, private banking, and private pension plans.

Information about other divisions of the Bank, e.g. non-revenue generating divisions, is presented under the heading Other operations.

Internal reporting is based on the results of the Bank, which accounts for around 91% of the net operating income of the Group, and do not take into account the effects of consolidation. As a result, elimination entries are needed to reconcile internal reporting with consolidated results. Elimination entries arise primarily from interest calculated on internal balances, share in the results of subsidiaries and fees charged for services the parent provides to subsidiaries.

#### 52. Other matters

In March 2017, the Bank announced that the Board of Directors of the Bank and Virding hf. had reached a mutual decision to suspend discussions concerning a possible merger of the two companies. The discussions had been ongoing since November 2016 with due diligence reports having been prepared in Q1 2017.

In April 2017, the Bank's then CEO, Sigurdur Atli Jónsson, gave the Board of Directors his notice of resignation.

In May 2017, the Bank announced that Ármann Thorvaldsson had been engaged as CEO of Kvika banki hf. and Marínó Örn Tryggvason as the Bank's deputy CEO.

In June 2017, the Bank announced that owners of 96.69% of the share capital of Virding hf. had approved an offer from the Bank for their shareholdings in Virding hf. The purchase price amounts to ISK 2,560 million and will be paid in cash. The acquisition is subject to certain conditions, including the approval by shareholders of both companies and regulatory consent. On 14 July 2017, a meeting of shareholders in the Bank approved to increase the Board of Directors authorisation to increase the Bank's share capital. Following that meeting, the regulatory consents are the only remaining conditions.

#### 53. Events after the reporting date

In the beginning of August 2017, the Bank announced that it had signed a contract to acquire the entire share capital of ALDA Asset Management hf. The sale was concluded subject to due diligence and regulatory consents. ALDA operates 11 UCITS and other funds for collective investment and has assets amounting to ISK 45 billion under management.

Following the shareholder meeting in July and the acquisition of ALDA Capital Management hf, the Board of Directors decided to increase the class A share capital of the Bank by a nominal value of ISK 300,000,000 through the issuance of new shares. It is estimated that the subscription for new shares will be completed on 18 September 2017.

There are no other material events after the reporting date.
